Introduction

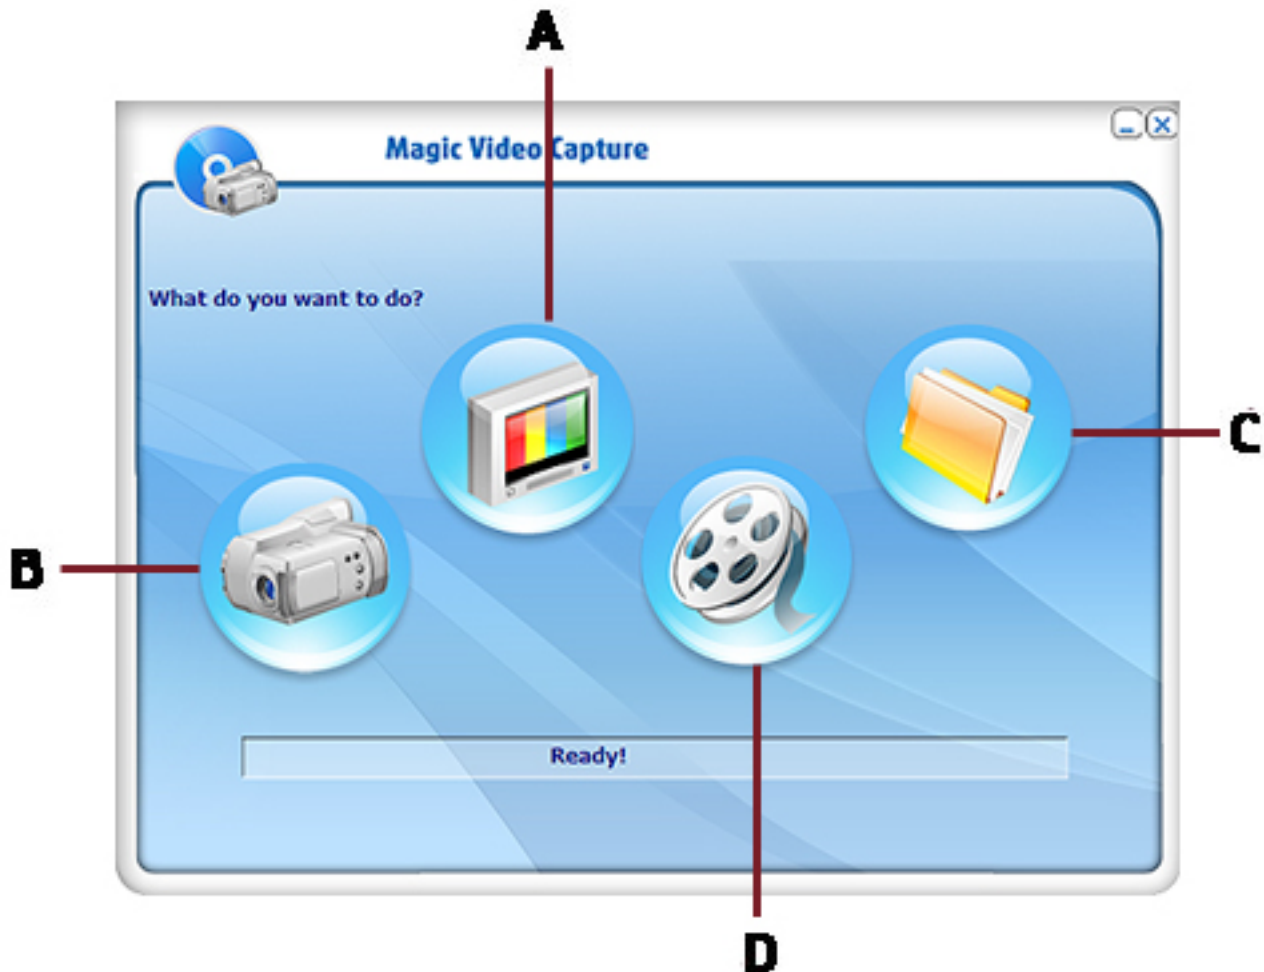

Do you want to make an AVI movie of happy time from your portable video devices? **Magic Video Capture** was designed for you.

Magic Video Capture is a professional-quality video production designed to capture and record screen activity in real time. You can capture moving action, even sound and image from TV Tuner card, digital video, digital camera, USB cameras, PCI capture card and other capture devices. The captured file can be saved as AVI or WMV format in minutes. **Magic Video Capture** also enables you to do more with your video files, for example you can add text or watermark to video and record video with audio.

Magic Video Capture is popular with most users for its intuitive and user-friendly interface. Different settings are provided for capturing from different types of video devices. Basic functions can be performed via keys or buttons listed on interface and further functions will be performed with detailed instructions or tips.

How to buy Magic Video Capture

As soon as you make your order, our resellers will verify it. Your order will most likely be processed within 1 hour, but in some VERY rare cases it may take resellers more than 24 hours to process your payment.

The registration key will be automatically generated at our server and e-mailed to you immediately after we receive payment confirmation from our e-commerce reseller.

Please do not worry if you haven't received the registration information right away. Delays usually occur due to the high security settings of spam filters used by our clients. Our message may be rejected as a spam message by the mail service you use.

If you haven't got the registration message within several hours, feel free to contact our [Support Team](#) via email.

If you have questions concerning our software, please send e-mail to: sales@magic-video-software.com. **We always do our best to help you!**

purchase information, and we can offer you a discount price within 24 hours.

▶ **More...**

If you have a question that was not addressed by this document, please contact our support team via support@magic-video-software.com.

Other FAQs

▶ **The new way to buy software: What is ESD?**

ESD means Electronic Software Distribution. E-commerce makes it possible to buy all kinds of services and goods on the Internet. However, only three kinds of products can actually be delivered online: software, music, and books. The electronic distribution of music and books is still quite restricted, due to copyright and technological reasons. Electronic Software Distribution, however, is growing steadily and according to estimates is likely to account for as much as 10% of all global software sales by the year 2002.

ESD allows you to purchase much the same content, quality and benefits as with boxed software. Instead of receiving a CD you download the software from a server, and then make your own backup copy, which we highly recommend. Registration/serial numbers will be provided when appropriate. Magic Video Software ESD products include the manuals as files with the downloadable version of our products.

▶ **What are the main advantages of ESD?**

The main advantages of purchasing downloadable (ESD) software are that it is convenient and saves time and money.

Four of the advantages of ESD over the traditional boxed software are:

Fast and Easy. You can buy, download and install new products in minutes, right when and where you need them.

Always open. Global access 24 hours a day, 7 days a week.

Lower Prices. In most cases the ESD versions of Magic Video Software products cost less. This is because costs related to packaging, distribution and storage do not apply. With an ESD version, you also avoid any shipping/handling fees*. (*Shipping & Handling fees apply to the Backup CD)

Friendly to the environment.

▶ **How to buy: Step by step guide**

There will be a detailed guide to help you through the three simple steps of the purchase process. [Click Here](#) and try now.

▶ **Payment options**

Acceptable means of payment within Magic Video Software include: Visa, MasterCard, American Express, JCB and Diners Club. Additionally, our reliable partners - Shareit and RegNow also offer Bank/Wire Transfer, Switch/Solo, fax, Check, Cash payment and other payment options

you enjoy.

▶ **Questions not covered by this document**

If you have a question that was not addressed by this document, please contact our support team via support@magic-video-software.com.
